

ShuttlePRO v2

The Perfect Companion

Contour ShuttlePRO v2 is the perfect companion for audio, video, and photo applications on your Mac or PC. Designed to enhance productivity, the sleek design of the ShuttlePRO v2 is pre-configured to work with many of today's multimedia applications, and works in tandem with your mouse or graphics tablet.

Key Features

Aluminum jog dial

ShuttlePRO v2 features a high-quality, metal jog dial that brings accuracy to your timeline scrubbing.

Rubberized Shuttle wheel

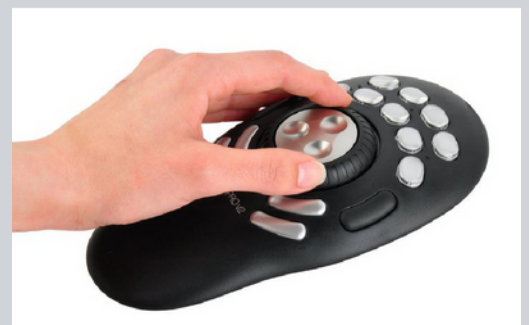

ShuttlePRO v2's spring loaded shuttle wheel is rubberized for an easy grip and allows for multi speed scanning both forwards and backwards along your timeline.

Make It Your Own

With 15 programmable buttons, your most regularly used tools or macros are always on hand when you need them. A label sheet is also included, allowing you to label the buttons as you wish.

Fast & Intuitive

By using a mouse with one hand and ShuttlePRO v2 with the other, audio and video editing is simpler than ever.

Standard Button Functions

Popular and often used functions are in close reach. 15 programmable buttons reduce unnecessary and harmful movements. The top rows of buttons have removable caps so the included labels can be inserted for quick reference. An example of a Shuttle setup can be:

Left Side Shuttle Positions

1. Shuttle Reverse
2. Shuttle Reverse 2x
3. Shuttle Reverse 5x
4. Shuttle Reverse 10x
5. Shuttle Reverse 15x
6. Shuttle Reverse 30x
7. Type Key: Control+page down

Right Side Shuttle Positions

1. Shuttle Forward
2. Shuttle Forward 2x
3. Shuttle Forward 5x
4. Shuttle Forward 10x
5. Shuttle Forward 15x
6. Shuttle Forward 30x
7. Type Key: Control+page up

One-touch

With a click of a button, you can trim videos, apply photo effects, or add audio markers without the need of your keyboard. ShuttlePRO v2 offers the ability to store macros, making it a perfect companion for applications such as Adobe Photoshop, where complex, repetitive actions may be required.

The Smart Tool

ShuttlePRO v2 can detect the application you're using and switch settings automatically; a great feature if you are using multiple apps in a single project.
